THE FINANCIAL REPORT.

The minutes were read and approved, and the semi-monthly report of Clerk Bowers presented. It showed that out of 578 855 53 appropriated to the various departments to be used during the first three months of the year, or until such a time as the regular yearly appropriation ordinance is adopted, \$5,050 68 had been expended, leaving a balance of \$73,804 85, as follows:

Board of Public Works, \$12,298 09; Fire Department, \$6,488 30; Health Department, \$16,488 30; Health

The report of Henry Serig, keeper of the crematory, of the workings of that institution during the month of Decamber, shows that 61 loads of garbage, 126 barrels and boxes, 5 dogs, 43 loads of contents of ash vaults and 26 barrels of night soil were consumed in the fiery furnaces during that period.

Abbits Jackson, a well known colored citizan of Fast Wheeling, was arrested by Officer Bell last night on the charge of keeping a house of ill fame. A male visitor was in her place on Nineteenth street at the time, and he was also arrested, the charge against him being loitering in a house of ill fame.

The Board of Public Works has expended none of its appropriated \$1,400 to the compromise loan, and of this \$1,300 has been expended. The report was ordered filed.

THE BOARD OF HEALTH. The ordinance changing the name of the Committee on Health to "Board of Health," and giving it such powers as are conferred by the State law on the matter, which was objected to at the last meeting and ordered printed, was taken up as un finished business and its second reading

commenced after a motion to indefinitely postpone, made by Steger, had been heavily sat upon.

The first section provides that the members of the Committee on Health and the Health Officer shall constitute the Board of Health. Mg. Garvin moved to strike out the committee and ineert "Board of Police and Fire Commissioners." He supported this motion in a long speech, in which he was frequently interrupted by members who had considerable fun at his members who had considerable fun at hi expense. At the conclusion of his tall expense. At the concision of his task his amendment was knocked out by a large majority. Of the money stolen \$200 was in greenbacks and the rest in sliver. The thieves must have known of its existence and langhed accordingly, until he soberly continued by stating that he believed whether he should appoint the committee or allow Council to do it. Then Oolonel Oaldwell jumped up and called the Caldwell jumped up and called the Mayor to order pretty sharply.

THE OLD BOARD.

Mr. Gruss stated in his most selemn manner that 15 desired to be excused from voting for the reason that he was conscientionally opposed to the manner of the Board's make-up and plan of work and because he honeslip believed it to be an unconstitutional body. He was excused. Then Mr. Harrell made one of his old speeches that he made at the time the Board was formed, and asked to be excused from voting because he took no stock in the Board and did not want to vote on anything he did not take stock in. He was excused.

EX-COLLECTOR CRAWFORD'S BONDS. The report of the Finance Committee in relation to exCity Collector Crawford's af fairs was considered at considerable length by the Second Branch, and it was finally decided to instruct the City Solicitor to proceed to collect from the four surviving bondsmen on Mr. Orawford's bond the amount of his shortage, which is some-thing over \$2,800. The First Branch con-Council last evening was a regular oldtimer, such as has not been held for some thing over \$2,800. The First Branch con-curred in this without any debate. There was a strong effort made in the Second to have the proposition made by the four survivors and reported in yesterday's is-sue accepted, but it was defeated. It was openly charged that Col. Caldwell advis-ed proceeding against the bondsmen, be-cause in case of a suit he would get a big fee, and he as openly announced that his fee would be only \$100, which the opposi-tion considered to be a very low one for the amount involved.

OF THE FLINT GLASSWORKERS.

Local Officials Concerning the Alleged Scale Contract -- His Views as to the Situation in the East.

can Flint Glassworkers' Union, arrived in this city last evening from Pittsburgh. He was met here by Messrs. Butler, Peccari, Burt and other well known offitill a late hour in conference with them. After the little meeting dispersed, after midnight last night, a reporter learned that President Smith's visit was with a view to inquire into the alleged existence and is now diving an express wagon. of contracts governing the wages to be paid for a year at the two glass houses here and the Dalsell works at Wellsburg.

A prominent glass worker explained to an Intelligences reporter that the Union claimed to have a contract with all three claimed to have a contract with all three factories named, though only Preaident Scott, of the Central, had offered to submit to arbitrators the question whether such a contract does exist. Said the worker quoted:

"The men regard the shut down at Hobbs, Brockunier & Co.'s as an incident of the expiration of the copartnership there. Had the works not stopped for that reason, the claim that the scale had been sceepted and was binding for a year

that reason, the claim that the scale had been scepted and was binding for a year would have been male in regard to that works too. We do claim this to be the case at the Dalzell works."

It was learned that while the proposal has not yet been carried out by the appointment of arbitrators, President Scott's offer to arbitrate will in all probability be accepted. There will be no suits brought to enforce the contract, at any rate.

President Smith has just returned from a tour of the East looking into the strike in the factories there. He is very much encouraged by the outlook for a settlement there. All efforts to ascertain his feeling in regard to the situation in the Western section were futile.

ection were futile.

Referring to the etstement that the glass manufacturers' executive committee is waiting for an answer to the communication transmitted to the workmen's execu-tive committee recently, Mr. Smith said the answerwould reach the manufacturers

the answer would reach the manufacturers in a very few days.

The negotiations here with reference to the arbitration of the contract question at the Central factory are between President Scott and his employes, and not with the National Union formally, although that Union approves of that arrangement and gives its full consent to it.

The men say that only one question, as the matter now stands, can be considered

the matter now stands, can be considered with the piece work factories—which in-clude all factories in the West except the two here and the Dalzell factory at Wellsburg—and this one question is the wages of the gathering boys, which is the only part of the new Union scale upon which an agreement had not been reached when tiations were broken off last fail.

low a Welcome Christmas Came to Many How a Welcome Christmas Came to Many. The holiday sun shone brightly on Tuesday, (always Tuesday) Dec. 13th, in New Orleans, La, when the 211th Grand Monthly and the Extraordinary Semi-Annual Drawing of the Louisians State Lottery took place as usual under the management and supervision entirely of Gen'ls G. T. Beauregard, of La., and Jubal A. Early, of Va. Fortune took to its old wings certainly. Over a million dollars fell from the wheel. No. 53,459 drew the First Capital Prize of \$300,000, sold in fractions. No. 8,180 drew the Second lail manufacturers at the office of the Bewood Iron Works yearedray afternoon, but those present said after adjournment, that nothing of public interest transpired. The Western Nail Association meets at the same place to-day, and it is thought that the meeting will be a pretty interesting one.

The nailers were formally taken into the new sasembly last evening, and it is said that there are now scarcely any old or new nailers not members of the Union, and the new once are said to be firmest of all against a reduction of wages.

A Sermon on Temperance.
